DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-8, 10-16, and 18 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by WO 98/23868. See the figures with the abstract.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 9 and 17 are rejected under 35 U.S.C. 103(a) as being unpatentable over WO 98/23868.

The reference discloses the device in **figs. 2A and 2B**.

The reference does not disclose that the support structure **14** is two materials bonded together.

The Examiner takes Official Notice that it would have been well known in the art to bond two different types of materials together for the purpose of utilizing the properties of both materials. It would have been obvious to one of ordinary skill to bond

together the stopper 14 to the arms 12 for the purpose of providing flexible arms and a stopper with superior corrosion characteristics.
